

RAZOR RS

Clear Polycarbonate Security Cover

The RAZOR RS is a high-impact, low-profile, clear polycarbonate security cover designed to fit securely over the Razor housing. It offers a clean and refined look, eliminating unsightly screws in the face of the sign, or the necessity to bolt a cover to the wall. The Razor RS provides an aesthetically pleasing vandal shield option for public areas prone to accidental or intentional abuse.

CONSTRUCTION

- Heavy wall .125 polycarbonate cover contoured to fit neatly over the housing and secured with 4-stainless steel button head cap screws to prevent unauthorized removal
- The RS Razor security cover can be used with single or double faced signs (2 required for d/f) in all mounting configurations including pendant mount applications
- Notched bottom allows for test switch access

COMPATIBLE PRODUCTS

- RS is provided standard with all LL , low level signs sold with RZMR, CCDMR, or Sovereign
