

LIFELINE CUSTOM GRAPHICS

Self-Luminous Tritium Custom-Wording Sign

The Lifeline LEX Series is a unique, non-electrical self-luminous sign powered by a sealed tritium light source with a 15-year lifespan, requiring no maintenance. Its custom stencil graphics are illuminated against an opaque background for clear visibility. Designed with sustainability in mind, Lifeline signs can be recycled at the end of their lifespan.

CONSTRUCTION

- Rugged thermoplastic, flame retardant ABS injection molded housing with tamper resistant finishing bezel
- Requires no external light source, electrical power, wiring or batteries
- 12 Year rated service life
- 100% reliable, always on and maintenance free
- Sealed internal construction prevents unauthorized access to light tubes
- NO SERVICEABLE PARTS
- Heavy-duty universal mounting bracket supplied with hardware
- Suitable for wall, ceiling, end mount or optional pendant mounting
- Screen-printed internal legend protected by clear polycarbonate window
- Suitable for clean room applications
- Explosion proof (not a source of ignition)
- Operating temperature -22°F - 149°F

ELECTRICAL

- Non-electrical sustained tritium light source
