# TUFFLITE NX - Emergency Light

## NEMA 4X Wet Location

Tufflite NX provides an economical solution for Hostile or Wet location applications. Corrosion resistant UV stabilized ABS housing is ideal for Indoor or Outdoor wet locations and is resistant to corrosive atmospheres, non-hazardous dust environments and splashing or spraying water. Now available with matching exit signs and exit combo unit the NX family offers a complete solution for NEMA 4X requirements.

### Construction

- Corrosion resistant UV stabilized ABS thermoplastic housing in light gray finish
- NXLED is provided with mounting feet for easy wall mount installation
- Wall mounted with side entries for flexible conduit

### Electrical

- Fully automatic operation provides 90 minutes of emergency backup
- NXLED is suitable for use in a temperature range of -20°C to 40°C
- NXLED uses maintenance free Nickel Cadmium batteries
- NXLED standard lamps 15 LED's per lamphead, parallel wired PAR 36 style at 1.875 watts per head
- Field selectable 120 or 277 VAC input
- Sealed external momentary test switch and AC on indicator provided as standard
- Solid state charging circuit recharges battery per UL 924 requirements
- Line-latch prevents unnecessary discharge of battery during installation, loads will not illuminate until after application of utility power
- Low voltage cut-off prevents battery damage and ensures positive charge acceptance following an extended discharge
- Brownout sensing assures emergency operation during periods of low line voltage

### Certification

- Wet and damp location listed to UL 924
- Meets UL 924, NFPA 101 Life Safety Code, NFPA 70-NEC and OSHA requirements

### Warranty

- 3 Year Limited Warranty
